Cont: page 21

Brotherly salute

For the purpose of implementing emergency plan and for precaution from the possible invasion and for the fact that our war is expected to be a long one with our American enemy and for the purpose of providing the movement supplies, we emphasize the following and according to the plans prepared by you according to instructions from the command.

1- Updating plans as far as single locations according to it's strategic, vital,

and great importance whether it was the # of individuals assigned to the

locations or their party ranks or levels

2- Reassuring finishing storing fuel for 6 month supply depending on available sources.

3- Assure providing access for available machinery that can be used for implementing this emergency plan and the plans attached to it for the people to inventory the # available and kind of machines and the amount

of time it takes for it to get to the assigned locations.

4- Forming small teams inside every party geographical region at least 2 and

above, it's mission is to diagnose any negative phenomena whether it's by recognizing inimical elements or the deserters or infiltrators from the

streets and allies during the invasion (god forbid).

5- Assure naming the noted brothers and sisters by blocking their info and getting mail according to available means between areas and parties

6- Not allowing penetration of escapees or ones trying to move from an area

to another without command orders upon necessity

7- Assigning brothers by name for the purpose of providing necessary services for area citizens in which provides settlement for them and not leave it.

8- Assigning limited # of security force members and police members from

party locations and organize with apparatuses managers and with no negative effect on their main duties and to utilize them to train the brothers on fighting and security missions for their sections.

9- Using supporters and citizens for the other missions that requires implementing emergency plan according to party leaders evaluations

10- Making plans for fighters assigned to fight paratroopers whether they were landing or after they occupy some areas (god forbid) and how to

counter and finish them in those areas whether it was day or night
 11- Offer members their need of water through available wells or tanks
 12- Reemphasizing implementation of plan exercises in all entities and by
 all the above mentioned and at all times (day and night) and any
 weather condition.
